Features & Benefits

Send e-mail and attachments faster – Need to send a batch of digital pictures or a large presentation? V.92 lets you send attachments up to 50% faster!

Get online quicker – Quick Connect lets you establish your connection faster, so you spend less time dialing up. You're only seconds away from surfing the Web!

Don't miss that important phone call – U.S. Robotics Internet Call Notification (ICN) lets you screen incoming calls so you can take the important ones. (Call Waiting and Caller ID require service from your local phone company.) Modem on Hold lets you take calls while online without dropping your Internet connection – there's no need for a second phone line. Great for home or office!

Exclusive U.S. Robotics ControlCenter – Customize your upload and download speeds – choose to surf the Web at top speed or to send e-mail attachments faster.

Renowned U.S. Robotics performance – Our advanced Line Probing technology lets you stay connected even under the worst line conditions. Save time and money with more reliable connections!

Software upgradable – Download new features and enhancements as they become available.

Included software turns your computer into a feature-rich fax machine – Send faxes from any Windows application, and receive incoming faxes at any time. Also supports delayed and broadcast faxing.

Simple 1-2-3 installation – Your U.S. Robotics modem installs in three simple steps – it's so easy to install, you'll be up and running in no time!

Controller-based performance – This modem works with the widest range of operating systems and handles all communication processing tasks for faster throughput – no need to burden your computer's resources.
